Supplies: 2 1.25" Radiant rings TierraCast 94-3112-61  
2 jump rings TierraCast 01-0020-01

1 pair S/S Earring blank TierraCast 90-1120-00  
2 8" pieces of 24g wire

## Instructions

- STEP 1: Slip one Bead (art. 5301, 4mm, Crystal AB) onto one earring blank. Create a simple loop. Repeat step for the second pair. Set aside.
- STEP 2: Taking one 8" piece of wire, slip on twenty-five Beads (art. 5301, 3mm, Crystal AB). Now slip on one BeCharmed Pavé baguette. The BeCharmed Pavé Bead needs to sit on top of the 3mm Crystals. Repeat this step for the second pair.
- STEP 3: Using one piece from step 2, with your fingers begin to form the wire into a round form about 20mm in diameter, while keeping the crystals snug next to each other. Gently bend the wire on each end at a 90 degree angle being careful not to break any crystals. Repeat step for the second pair. Set aside.
- STEP 4: Close each of the two jump rings. Set aside.
- STEP 5: Using one form from step 3, lay it into the center of one radiant ring and lay one jump ring on the top (outside) of the radiant ring. The wire tails should be sticking straight up, one on the front side of the ring and one on the wrong side of the ring. Taking the wire from the front, begin to wrap it around the radiant ring and the jump ring; wrapping from left to right about 3 – 4 times keeping the wire tight. Nip the wire from the wrong side of the ring and tuck in place. Now take the wire from the wrong and begin to wrap around the radiant ring and the jump ring; wrapping from right to left about 3 – 4 times keeping the wire tight. Nip the wire from the same side as the first and tuck into place.
- STEP 6: Open the loop on one earwire made in step 1. Attach it to the jump ring from step 5 making sure the earwire is in the correct position.
- STEP 7: Repeat steps 3 – 6 for the second pair.
