STEP 7

STEP 8

# EASTER NAPKIN RING "CLASSY HEN"

- STEP 1: Cut out the pattern and apply double sided tape to the back.
- STEP 2: Adhere the pattern onto a piece of cardboard and cut out the pattern.
- STEP 3: Put the modelling compound onto the plastic folder and roll it down flat using a rolling pin to a thickness of 8mm.
- STEP 4: Cut out the outer shape marked with red outline using a side cutter. Carefully mould the edges with a bit of water to smooth them down as shown in the illustration with this step.
- STEP 5: Use a small glass with an approximate diameter of 4cm and place it over the centre and cut into the plastic compound to create a hole as shown in the illustration with this step.
- STEP 6: Mould the inner edges with a bit of water to soften them. Press the seven fancy stones from the SWAROVSKI ELEMENTS assortment into the plastic compound using tweezers as shown. Apply a small amount of water to mould them in properly.
- STEP 7: Use a toothbrush to clean the SWAROVSKI ELEMENTS and fix them properly with the help of tweezers as depicted in the illustrations.
- STEP 8: Smooth the compound as necessary by gently sanding with sandpaper. You can insert your napkin through the centre hole.
